**Weights for each domain**

Employment	28%
Income	28%
Health	14%
Education	14%
Access	9%
Crime	5%
Housing	2%

**Criteria for selecting indicators**

- direct as possible measures for the given aspect of deprivation
- up to date
- capable of being updated on a regular basis
- statistically robust
- measure widely relevant features of deprivation (not conditions just experienced by a small number of people or areas)
